Hi Steve,

We are seeking your permission and advice on behalf of our client for the relocation of the bus stop in the boundary of the property at 1110 Victoria Rd, West ryde to have the proposed driveway for a duplex development.

The location for the proposed driveway is the only location we can choose since council requires us to have a turning bay to head out the vehicle on the main road. Please see survey plan and architectural plans attached for your information.

Please advise if we are able to relocate the bus stop within our front boundary.

Thank you

Best regards

Hi Catherine,

I see no issues with the relocation of the bus stop and associated infrastructure at [No 1110 Victoria Road, West Ryde](#).

I would suggest that the signage be installed west of the new driveway so as when a bus does stop at the location, it will be across the driveway for a very short time, thus reducing any impact to the neighbouring properties.

If you have any questions, then please feel free to get back to me.

Regards,

**Steve Grady**
