RE: PAN 123289 – 4 to 8 MIRIAM ROAD WEST RYDE

This application seeks to substitute the approved '*slate*' tile with a concrete pantile in a medium grey for the duplex and town houses. As a new build this is not a heritage issue but requires compatibility with the prevailing character of the area.

I consider this material is compatible with the character.

I also understand that the consultant planner, Andrew Minto has endorsed this choice.

Yours sincerely,
